

KEN C. CHIU, MD, FACE, FACP
Endocrinology

Ken C. Chiu, MD, FACE, FACP is a former professor in Endocrinology. He received his medical degree from the Taipei Medical University School of Medicine. He completed his Endocrinology training at the Washington University/Barnes Hospital, St. Louis, Missouri in 1993.

Since then, he has been actively involved in the Endocrinology Fellowship Training Program previously at the Washington University/Barnes Hospital, UCLA Medical Center, and currently at Harbor-UCLA Medical Center. He is a very active diabetes researcher with more than 100 PubMed listed publications in diabetes genetics, vitamin D in diabetes, diabetes epidemiology, and pathophysiology of diabetes. His publications have been highly cited by his peers.

As a diabetes expert, he has been invited to speak in various international, national, and regional meetings. Beside his

established teaching expertise in clinical endocrinology, he has extensive clinical experience in all aspects of endocrine disorders. In addition to English, he is also fluent in Mandarin and Taiwanese.
